## Working together to protect Lake Simcoe: for our future

Take some time to review the [Green Leaders](#) stories on ELS to find out how individual business owners in the watershed are taking responsibility for the impact of their business on the environment.

As the weather warms up, adventure outfitters are opening their doors for the season. Make sure you consider all that the Lake Simcoe watershed has to offer when you make plans for your summer getaways. If you are travelling locally or from the GTA, consider public transportation -- it is a great way to avoid traffic.

To start off the boating season, consider attending Lefroy Harbour Resorts Family Fun and

## Flying Monkeys Brewery tackles wastewater

*Local brewery innovates to treat wastewater*

For those who like to drink beer, the fact that craft breweries are gaining in popularity across Ontario comes as no surprise. What may be a surprise is the challenge faced by these breweries to deal with wastewater once they achieve certain levels of production. With the popularity of Flying Monkeys' craft beers and the corresponding increase in production, this brewery is spearheading an initiative to find the best technology to pre-treat brewery wastewater before it hits the municipal treatment plant.

## Naturalization at Tangle Creek Golf

*Learn about environmental initiatives at Lake Simcoe watershed golf courses*

Signs posted around the Tangle Creek Golf and Country Club clubhouse and on the course about efforts to reduce paper

Safety Day on June 17. This will give you a chance to review safety practices, and even dispose of any old boat flares safely.

This time of year thoughts also turn to fresh, locally produced food. The Lake Simcoe watershed is home to many farms, each with their own flavours. Explore Lake Simcoe highlights the sustainable practices of a number of these farms. There may even be a farm right around the corner from where you live that you didn't know about -- take time to discover what is available.

This summer ELS will focus on sharing the environmental practices of golf courses located in the watershed. If you are a golf course operator who is interested in participating please see further details [here](#).

To see where you can improve on your triple bottom line download the free [Green Tourism Toolkit](#). You can request one specific to your sector.

waste and protect natural areas may be visible reminders of Tangle Creek's commitment to environmental protection, but their efforts go much further than that.

## Celebrating local farms

*Lake Simcoe watershed is home to many farms*

Local growing season is here! In the Lake Simcoe watershed, visitors and residents alike are very fortunate to have access to many local farms. With the number of farms in the area comes the ability to speak directly with the farmer who produced the food you are purchasing, and to learn more about his or her farming and environmentally-beneficial practices.

## Supporting green accommodation providers

*Looking for green accommodations?*

Castlevue Inn is carefully constructed with building materials and technology selected with the environment in mind. The craftsmanship is the work of owner and builder, Danny Danshant who has integrated energy and water saving measures and strives to maximize waste diversion.
